List of materials needed for a Domuslife system plant

Please contact us for more information on prices and for a personalized estimate.

Code	Description	U.m.	Unitary Price	Cost per mq.
Pann001-1 Pann001-3 Pann001-5 Pann001-7	<p>“Domuslife” active panel. Composition: Fire-proof PlasterBoard covering layer (15 mm) with integrated capillar water circuit and expanded polystyrene layer, class 200, 30 mm thick. For more information on technical data and performances please read the attached specifications data sheet. Domuslife panel is certified in accordance with En14037 and EN14240.</p> <p>Details:</p> <p>Pann001-1 - Dimension 1200 x 300 x 45 Area mq. 0,36 Pann001-3 - Dimension 1200 x 900 x 45 Area mq. 1,08 Pann001-5 - Dimension 1200 x 1500 x 45 Area mq. 1,80 Pann001-7 - Dimension 1200 x 2100 x 45 Area mq. 2,52</p>	mq.		
Pann020	Plain panel in Fireproof plasterboard. Dimensions: 1200x2100x15 Area: 2,52 mq.	mq.		
Coll001-5	Couple of P.P.R. collectors for water feed of Domuslife active panel. Single fit x 5 ways.	Unit		
Coll002-5	Couple of P.P.R. collectors for water feed of Domuslife active panel. Double fit x 5 ways.	Unit		
Coll010-5	Weld handle PPR Ø 20 for collector joint	Unit		
Coll020-5	Weld reinforcement PPR Ø 20 for collector joint	Unit		
Coll030-5	Lock joint for conversion from PPR Ø20X2 to multi-strata Ø20X2	Unit		
Coll031-5	Lock joint for conversion from PPR Ø20X2 to 1/2”	Unit		
Coll032-5	Repair or extension kit for panel’s joints with screws Ø 6 - Reinforcement screw Ø 6 - PEMD pipe Ø 6	Unit		
Isol001	Insulating band auto-adhesive in expanded webbed polythene for water feed collector insulation: ml 50 x mm 200x5 reel.	Unit		
Isol010	Insulating band auto-adhesive in expanded webbed polythene for perimeter’s joint construction (for surfaces expansion): ml 50 x mm. 100x5 reel.	Unit
